## Junior Fullstack Developer

With 1.5 years of experience in full-stack development, I specialize in building scalable and high-performance web applications using React.js, Node.js, and RESTful APIs. I have hands-on experience in end-to-end application development, including designing responsive dashboards, integrating databases (SQL/NoSQL), and implementing real-time data synchronization. I am proficient in backend development, API integration, and database management, and have deployed applications using modern CI/CD practices to ensure reliable and scalable production environments.

## WORK EXPERIENCE

**Dedev.co • Lahore, Pakistan • 07/2025 – Present**

### Junior Fullstack Developer

- Contributed to end-to-end full-stack development by building scalable, dynamic dashboards using React.js, Redux, and Zustand for efficient global state management.
- Designed and developed secure RESTful CRUD APIs using Node.js and Express.js, implementing authentication, authorization, and robust validation mechanisms.
- Integrated MongoDB, MySQL, and SQL Server databases to ensure reliable data management and real-time synchronization between frontend and backend systems.
- Utilized Prisma ORM for database schema design, query optimization, and maintainable backend architecture.
- Integrated backend APIs into frontend applications to deliver real-time updates and enhanced user experience.
- Deployed full-stack applications to Firebase Hosting, Vercel, and Netlify, ensuring stable, scalable production environments.
- Developed and deployed Firebase Cloud Functions to automate serverless workflows and implement push notification systems.
- Collaborated with cross-functional teams to improve backend architecture and enhance overall application performance.

**Teams.pk • Lahore, Pakistan • 06/2024 – 06/2025**

### Front-End Developer

- Rebuilt and optimized the UI for the company's POS and KDS systems using Vue 3 and Tailwind CSS.

- Developed and maintained the admin panel, ensuring smooth data management and a clean, responsive interface.
- Created reusable, scalable, and modular components to support consistent UI across all products.
- Integrated RESTful APIs using Axios and managed application-wide state through Pinia .
- Coordinated with the backend team and contributed occasionally to Laravel-based tasks.

## EDUCATION

### Information Technology

University of Punjab • Lahore, Pakistan • 12/2024

## SKILLS

HTML, CSS, Javascript, Typescript, React JS, Vue JS, Next JS, Redux, Zustand, Node JS, Express JS, My SQL, MongoDB, SQL Server, Firebase, Firebase Cloud Functions, Prisma, RESTful API's, Git, Bootstrap, Tailwind CSS
